What are angels? Angels are powerful, creative beings of light, whose scope extends through all levels of the universe. If we get people back to work with the Angels, will show us many new opportunities. We can learn with their help to make our world more harmonious and healing processes to strengthen in us and the earth. There is no area of our life in the angels can not help us learn about ourselves and the relationships to be confident in all of creation. It's so easy - we just have to trust the angels to call and ask for help, even seemingly insurmountable obstacles can be resolved and previously fixed boundaries.

Where is the work of angels? Through the ages, and among many nations was common knowledge about the existence of angels. In many spiritual communities, e.g. the Essenes, was the handling and working with the angels, of course. The more, however, the person in the course of time identified with the materialistic world view, the more he lost contact with the angelic realm. In our time the old man and his knowledge of the angelic realm compound is added to the people again.

Sure - we must learn our lessons that can save us no angels but the angels are ready to accompany us to reinforce and teach. Wherever there to allow the cosmic laws, they will do anything to help us.

To strengthen the connection to the angelic realm of human experience and also to realize it is important that we have to wander over the possibility of the existence of angels. Our mind and its limiting ideas in general create a wall that keeps us from the angels perceive consciously. In all of us, however, this ability of the conscious perception of angels exist. We only need to re-discover and train. Love is the bridge to our spiritual heart is the door.

Since angels are beings that exist on a high and subtle vibration frequency, it is important to learn how we can raise our own vibrational frequency. Meditation, prayer and singing are some ways you can use to tune into angels. The angels will come against us, so we can meet in the middle.
