Even in Europe there are elements of old traditions that deal with the conscious perception, improvement and design of the visio-spatial situation - the â,¬ scopic geomancy. The Department of geomancy has now become the interdisziplinären field of knowledge, which in architecture and interior design, landscape planning and design, the ecology, in Städtebau, but also in psychology and medicine will find a wide range of applications gefchertes . From the buildings were old builders to increase the QUALITY spot even subtle vibrations in the planning and the Ausführung mitbercksichtigt. Building itself was designed so that they correlate with the terrestrial and celestial energy in resonance. These were not only special "holy Mae" is used, but also the appropriate icon and design.Castle Park Sans Souci Gem of the official settlement history of Europe blicherweise provided logistical factors as location factors in the foreground, such as the Erschlieung or militrische Erwgungen. Some came in Stadtgrndungen but demonstrably more often spiritual or feinenenergetisch begrndete criteria apply. Zones are often in the course of history loaded stdtischen Siedlungsgefge incurred in such Kriegszerstrungen or the demolition of churches and Schlsdern. This knnen zones be through, where seemingly no one likes indefinable rea aufhlt that despite intense development stdtische Frderung financial and high-quality design and implementation strategies will not only mhsam or in motion. Here, the geomancy remedy the situation, as they Einflsse subtle, some of which have significant effects, taken into consideration.Also be aware knnen new Pltze be created which will exploit the existing positive energy and thus cause a strkere commitment of residents to their environment. The Bercksichtigung Naturgesetzmigkeiten the gem of traditional sources in a time Gemen context bewhren today in the quest for a holistic development stdebaulichen. Glicklicherweise places of power not only exist Streinflsse negative, but also known as "places of power". Both in our living environment as well as in persnlichen ueren habitat, these points or areas of a positive, gesundheitsfrdernde and the life force upward impact on us. It is at this energy aufzusprenen donors and make them on site experience, so we&#39;ll be able to benefit from this positive force. Also be aware knnen new Pltze be created which will exploit the existing positive energies verstrken, respectively.Often, you can so-called "geomantic zones" in the city or countryside notice is within their area of influence thus increases the energy level to keep people happy and wohlfhlen. These zones specifications may be change like verstrkt or through work or stone settings. Traditionally this was done for example by standing stones, stone circles, or by churches and chapels. If one only slightly open fr its environment, this "bright" lines from all of us have experienced. On the other hand, it is equally important to bring in the existing Streinwirkungen Bewutsein and to neutralize or convert them into appropriate areas of acceptance.
