"The control of reality with the help of the soul, mind and consciousness" or "healing methods with the aid of consciousness," according to the teaching of Grigory Grabovoj began in 1996 in Russia. Grabovoj is including a very capable clairvoyant who works with scientists and doctors, which carried out by him and his students healings can also be immediately verified scientifically.

He caused a sensation when he could see the rows of numbers of healthy cells, "" and change it, if the body was certain diseases. Soon after, he wrote down series, which were applicable in certain diseases and developed by their frequency even their own life when she wrote to the skin. (In animals, ideal) if we focus on an appropriate set of numbers, one can already gain alone will cure or set a rejuvenation of the body in motion.

But other technologies that work in the language of consciousness and the soul, he has written in recent years and in a trilogy, which will now gradually be translated to German, just released. The most spectacular verified healings are teeth that have grown back again in adults, or a proven surgically removed pancreas, a woman suddenly grown again and the X-ray visible.

There are already schools in Russia, where you can learn his techniques. One of his pupils, the neurologist Svetlana Smirnova, who has lived in Hamburg for some time and pass on his teachings. Svetlana Smirnova was "Zens Communication" (Klosterneuburg, Austria invited), also hold a seminar, not only I followed with great interest and amazement, but also healers, therapists, doctors (including dentists) and Energethiker. The seminar course was booked out in no time.

Since then, I was able to achieve with some of the techniques in my clients had some amazing successes and see that it actually works.

My 81-year-old mother liked this so much that she allows me to write down their case:

So I have written to her the series of numbers for a healthy spine, not just on a sheet of paper and hung it in front of her bed, so they see it every morning must, but also written to the skin along her spine. In addition, my mom has learned the sequence of numbers by heart. Therefore we made only once the "technology of working with the spine" and thus have a program set in motion which restores the spine to normal. My mom who has a few years ago suffered a vertebral fracture, and therefore always had pain, and since then had no more pain and regenerate visible. Meanwhile, they can already bend over so far that they can even close their shoes again. A reduction in uterus, the bladder was pushed to the acute, declined the next day, after we had applied an appropriate technology. Similarly, intestinal problems were for the appropriate therapy and two nights when she was sweating abnormally, without fever have disappeared. General - she says - she was much more agile and vigorous now.

A pleasant side effect of the methods according to the teaching of Grigory Grabovoj is a visible rejuvenation of the people who work with it, so both the healer and the healed.

This is not just about him but the healing of individuals but for the salvation of all mankind. Because the more people try to heal with the help of these methods or to bring their consciousness to a higher level, the more people we get in turn on the subconscious level where we are all connected.

This knowledge he could have sold certain expensive to a select few and sweeten his life can, instead, it is Grigory Grabovoj a need, his knowledge no charge to all people, to lead the entire world to a higher level of consciousness and thus a possible global catastrophe to prevent.
