1984 Developed Daniel Grosjean and Patrice Benini, franzsische physiotherapists and osteopaths in close cooperation with embryologists, physicists and biologists to Microkinsithherapie as a holistic treatment method. The mode of action: Geschwichte Selbstheilungskrfte bring two, that the bodys not in a position to help themselves. The Microkinsithherapie strkt the Selbstheilungskrfte and thereby help to help themselves in Schmerzzustnden at Erschpfungszustnden Konzentrationsstrungen in acute injuries of the musculoskeletal system in vegetative Strunge problems or psychosomatic complaints find rest in berforderung deep relaxation Fri muscles and nerves of Frderung Selbstbewutseins Auflsen of longest, concerns, Schuldgefhlen regeneration of Krpergefhl after (Schnheits) operations, sports injuries harmonization with headache, migraine ne and whiplash, the Microkinsithherapie suggests itself, "scars" of healing to the already During the most embryonic or birth by infecting, toxic, or emotional overloading caused by radiation are at. Through your gentle and painless operation, it is also FR Suglinge and children very well suited. The Microkinsithherapie sees itself as a basic treatment, by removing the contaminated sites in the body stored Selbstheilungskrfte activated and leads to inner harmony and Strke. The Basics fr treatment, in addition to anatomical knowledge, particularly knowledge of the development of the organism and a well trained, einfhlsames tactility. The treatment is based on the hnlichkeitsprinzip in Homeopathy. We give with our own hands the information that shows us the bodys back to results in similar but minimal stimulation to the bodys, to give him a new Possibility adquate this to Strung react and therefore heal itself. The Microkinsithherapie Supported professional, medical or psychological treatment. You can not replace a MEDICAL treatment. The most frequently asked questions about treatment with the Microkinsi therapy can help Microkinesie Why? It helps your bodys stored traumas of the past or present, to eliminate him to prevent the recovery process. Tglich mu your bodys against different Auen will fight by coming aggression / attacks (microbes, toxins, physical and psychological shocks) or against comes from within Schwchen an institution. In most Complete any heals in silence the bodys own, because without you noticing it (AutoCorrect). When Schdigungen / interfere too much or too much, the bodys not respond adequately to it and the aggression hinterlt a "scar" in the cells: a reminder of the event. Despite this track, you have the feeling, as they have become healthy. Still, the memories of these cell Anhufung caused pain one day, a disease may develop and the bodys that is too weak to fight any more. So make the pain of chronic diseases. The Microkinsi therapy will help you to natriche way these memories, the weaknesses reduce your Abwehrkrfte, even if they zurckliegen long. How many treatments are bentigt? Fri a given case are 2, maximum 3 treatments required. The treatments knnen at a distance of 3 weeks to one place to a month. The Zwischenrume are ntig to the bodys fr can be self-healing time. For severe pain, the period between two treatments verkrzt. How does it work? The blood circulation, respiration, the exchange of cells, all these internal Vorgnge periodically to create a movement on the finishes of the skin. Since it is very difficult to perceive this, it will be "Micro Motion called. Your Microkinesie-Therapist will evaluate various zones of your bodys touch / befhlen to determine if your Micro motion is normal. If it is gestrt, a scar is in this area. This is a source of misconduct FR The organism. What is the process of treatment? A Micro Approximate treatment lasts one hour. After you have coming your Grnde hereby declares you embark on a massage couch. The Microkinesie-Therapist will first locate and identify the scars of your bodys prevent auszufhren the micro movements. If it finds one Strung she massaged lightly to help it to the micro motion be well again. Thus, the bodys recalls the shock, is focused on it and removed it endgtig. This creates a light work of the bodys Ermdung 1-2 hours. So it is advisable to rest after the Microkinesiebehandlung (heavy krperlichen charges, no long car trips). Even if this tiredness is very low, it is advisable in the coming two days after treatment for fifty 1.5 to 2 liters to drink in order to facilitate the work of the resignation. Not just the pain body massage Why, because the traumatic memory, which caused the pain is not necessarily at this point is the bodys. The bodys is a multifaceted and complex machinery in which there are many chain reactions. That is the reason why the treatment was not only refers to part of the bodys, but on the whole organism. The Microkinesie-therapist considers the bodys in its entirety. Thus, for example be the Strung Nebenschilddrse of the cause of back pain. The Nebenschilddrse sends a chemical information that the Muskelkrmpfe Wirbelsule caused in the cross. Due to the exact diagnosis can hand the Microkinesie-Therapist Locate the traumatic memory, which now causes your pain. By your bodys helped this old scar is eliminated, will not only reduce the pain, your bodys will also help eliminate the risk, because the pain comes back or expanded. Microkinsi Therapy Is the one-bit magic /

magical? No, there is nothing Magical and strange. It is quite simply a method of healing that anyone can - but with much learning communities - were. In fact, the micro motor hand gesprt to each of which is sufficiently trained. Can any practice? No. If spren, every movement can the Micro, you have to know the treatment Fri but the human anatomy very well. For this reason, forms the Zetrum fr Microkinsi therapy only doctors, physiotherapists and health practitioners from. What can the Micro-therapy alleviate problems? Many diseases and pain caused by small strung, in the course of life and anhufen schwchen our organism. The Micro helps the bodys effective against these "scars of the past will fight."
