"As on the day that lent you the world,  
The sun was in salutation of the planets,  
Are forthwith and thrived on and on  
According to the law by which you made.  
So you must be, you can not escape yourself;  
So said already sibyls and prophets;  
And dismembered no time and no power  
Embossed form that develops as it lives."  
(Goethe)

Spiritual Astrology is based on ancient knowledge and experiences. In earlier times, when astrology and astronomy have belonged together and have been recognized as a science, the focus of a horoscope analysis was on the ascendant. In this tradition there is the spiritual astrology.

The ascendant is the sign of the zodiac, which draws on the eastern horizon at the time of birth up. Therefore, for accurate calculation of the horoscope, the birth time of crucial importance.

Astrology is a gift that speaks to us in the form of symbols. The stars do not influence our destiny, but they show us symbolically to the problems that we have to face in our lives. Our soul seeks out the exact date for the incarnation, in which encrypted the stars that provide information that can help us in our lives. It's like a fever thermometer, so that is not causing the fever, but it only displays.

In the course of our incarnations, we have made many mistakes and these mistakes have left deep impressions in us. Many issues we've run them for fear of making something wrong. But we are called to live exactly the topics again, where we have failed. Just like in school: learning in German and we do not have a math or five words, then it only tutoring. If that is not enough, perhaps a special course in the summer? And if everything does not help: the class again and again from the beginning...

Well, if we express ourselves and go from school, we have our whole life trying to problems can not read or write properly and are already overwhelmed with the simplest calculations.

So it is with life issues. We are responsible for our own fate and can not run away.

The spiritual astrology opened a look at our lives from a different angle, namely, the view from our karmic past that influences our present life.

The ascendant is the key. In the Zodiac sign that we have chosen as the Ascendant, we get the answer to the question: What should I learn in this life?
